Skills

Languages: Html, CSS, JavaScript

Libraries: React.js, Redux Toolkit, Tailwind CSS, MUI, Chakra UI, Bootstrap, Axios

Tools: VS Code, Git / GitHub

Work Experience

Next Gen Tech Service

Mar 2024 - Present

React Developer

- Developed dynamic and responsive single-page applications (SPAs) using React.js, enhancing user experience and interface performance by leveraging React.js component-based architecture.
- Utilized Redux for efficient state management, implementing advanced data flows, and enhancing component communication to streamline application scalability and maintainability.
- Optimized front-end performance through techniques such as lazy loading, code splitting, and virtual DOM manipulation, resulting in faster load times and improved user interactions on both desktop and mobile devices.
- React Hooks, Component-Based Architecture, Redux / Context API, State Management, React Router, RESTful APIs, npm / pnpm, API Integration.

Slovexation Technology

Sep 2023 - Feb 2024

JavaScript Developer

- Built responsive, mobile-first web interfaces using HTML, CSS, JavaScript, and Bootstrap, improving load times and usability across devices by 35%.
- Leveraged Bootstrap's grid system and components to streamline UI development, enhancing project efficiency and visual consistency.
- JavaScript (ES6+), DOM Manipulation, Asynchronous Programming, Event Handling, Responsive Design, Mobile-First Development, UX/UI Design Principles, Cross-Browser Compatibility, Web Performance Optimization.

Education

SKU Chhatarpur

Aug 2024 - Present

Master Computer of Application
Runing-

MCU Bhopal

Aug 2019 - Jun 2022

Bachelor Computer of Application

CGPA: 6.96/10

Relevant Coursework: Object Oriented Programming, Databases, Code Structure / Organization, Cross-Browser Compatibility, Operating Systems, Computer Networks, Data Types and Variables, Basic HTML and CSS, Classes and Objects, Loops and Conditionals

Project Work

- **Kheti Mitra (2024):** Worked on the front-end development using React.js, adding new components, fixing UI issues, and integrating forms to send and receive data with the backend. Collaborated with backend developers to implement data exchange via RESTful APIs, improving functionality and ensuring seamless communication between the front-end and database. [\[Link\]](#)
- **Herba Essential (2024):** Developed a responsive single-product website using React.js and Chakra UI. Designed an interactive and visually appealing UI with Chakra UI components, ensuring a clean and consistent design system. Implemented React components for dynamic functionality and optimized performance for a seamless user experience. [\[Link\]](#)
- **AV Creations (2024):** Developed a responsive AV Creations webpage using HTML, CSS, JavaScript, and Bootstrap, focusing on user-friendly UI and seamless functionality. Integrated a contact form that securely submits user data to a Google Sheet via Google Apps Script, enabling efficient data management and streamlined storage for inquiries and customer feedback.
